## SUMMARY:

Full stack software developer with expertise in front-end and back-end development, experienced in designing, developing, and maintaining dynamic web applications.

## EDUCATION:

Presidency University, Bangalore (2020 - 2024)

- Btech in Computer Science and Engineering | CGPA: 8.3

## TECHNICAL SKILLS:

- Frontend - React js , Html , css
- Backend - Java , SpringBoot
- Database - mysql

## EXPERIENCE:

**Intern** - K-AKA Technology Services | Aug 2023-Jan 2024

- Developed a web-based CRUD application with frontend and backend
- Utilized Java SpringBoot and SQL for backend development and data management.
- Implemented RESTful APIs to facilitate communication between the frontend and backend services.
- Enhanced user interface using React js to build a dynamic web application
- Conducted thorough testing and debugging to ensure the application's functionality and reliability.

## PROJECTS:

### Centralized Organ Transplantation System

- Developed a dynamic platform to facilitate organ transplantation for donors and receivers.
- Designed and implemented a user-friendly interface using React.js to ensure a seamless user experience for both donors and recipients.
- Utilized Java SpringBoot for backend development to create a robust and scalable system architecture.
- Managed data efficiently using SQL, ensuring the secure and accurate storage of sensitive information.
- Ensured high performance and reliability of the application through rigorous testing and debugging.
